

Designer Julie Thomas of The Old Tattered Flag, has made some corrections to the thread key printed in the 2016 Fall Issue of PNPS. Here is the updated Punching/Color Key.

THANKFUL TOM - Corrected Punching/Color Key:

Element to Punch	Thread	No. Skeins
Legs, Feather definition	The Old Tattered Flag, Rusty Brown	1
Waddle, Feather detail	Valdani, P1 Old Brick	1
Turkey Body	Valdani, P12 Brown	1
Beak, eye, outer feather detail, lower feathers, numbers	Valdani, P11 Aged Black	1
Inner feathers, lower feathers definition, background on number box	Valdani, O154 Dark Antique Golds	2
Leaves, Grass and stems	The Old Tattered Flag, Grungy Green Valdani, P2 Olive Green	1 1
Flower	Valdani, O533 Golden Autumn	1
Background	Valdani, O576	3-4

Note: You can double-thread the needle by pulling one Valdani thread from the center of the ball and one from the outside, and then thread both ends through the eye of the needle. The design goes a bit quicker this way. Valdani number 8 is the equivalent of three strands of floss, so doubling the thread gives you the equivalent of six strands for punching. When using The Old Tattered Flag hand-dyed thread, use six strands.
