Finished size: 2 inches wide x 5 inches high

MISSING INSTRUCTIONS FOR CUTHBERT:

16. Cut a 5.5-inch x 3.5-inch piece of black wool for the hat. Wrap around the head of the snowman for placement, then create a cuff on the hat by folding the edge upward and gluing into place. Glue the backside by overlapping so the hat is tight on the snowman. Then wrap thread around the top portion of the hat to create a pompom.
17. Glue nose to snowman, add some blush for cheeks and use a sharpie for the mouth.
18. Cut small slits on the cotton batting where you would like to place your stick arms, then glue the arms into the slits.
19. Add a scarf and whatever other accessories you'd like to your snowman
